

Botany Internship

Learning through experience...

The intern will participate in studies that will help scientists understand the changes in the Santa Monica Mountains National Recreation Area plant community.

- Survey the Santa Monica Mountains for rare, threatened and endangered species.
- Survey the Park for invasive exotic plants.
- Collect plot-based vegetation and habitat data.

To Qualify:

- ~ *Background in Biology, Botany or Ecology is required.*
- ~ *Familiarity with vegetation mapping and sampling techniques is desired.*
- ~ *Knowledge of Santa Monica Mountains native plant vegetation is helpful.*
- ~ *Ability to learn to navigate using map, compass and geographic positioning equipment.*

Work Conditions:

- ~ *Position involves substantial amounts of walking in rough terrain such as dense chaparral or streams.*
- ~ *Commitment of 12 weeks, full time, is preferred.*
- ~ *Intern will work weekdays.*
- ~ *Valid driver's license is required, as intern may drive a government vehicle.*

How to Apply:
